Lilly Wong

Founder of

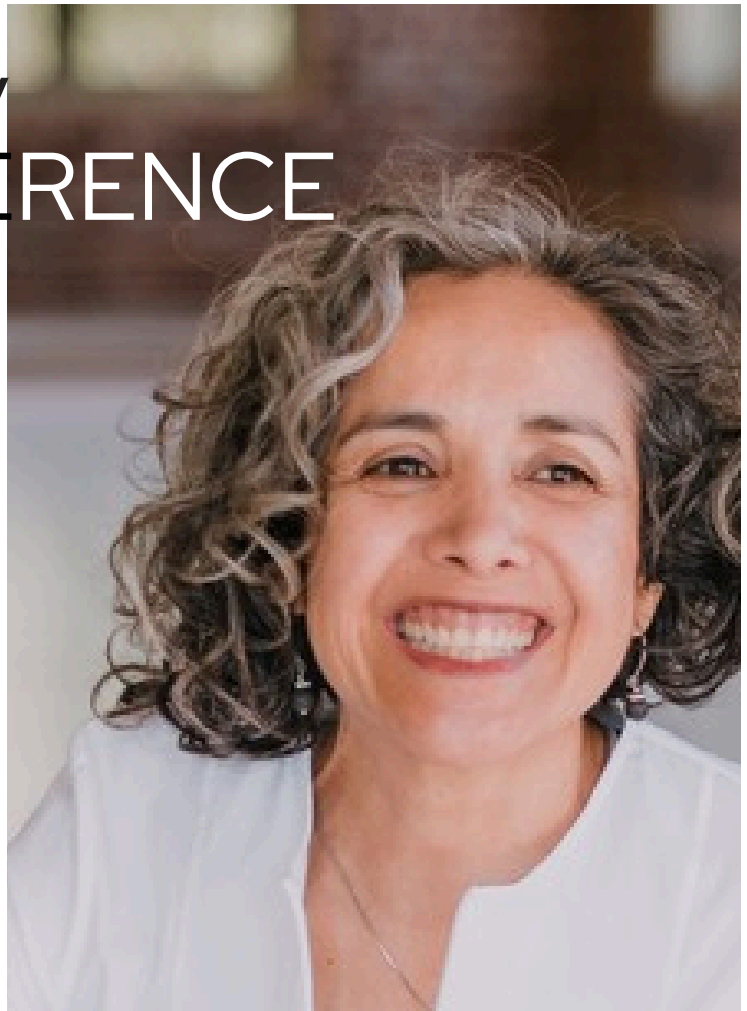

Igniting visionary COHERENCE

—I orchestrate fragmentation into wholeness

Hola, I am **Lilly Wong**,
Mother of Mythbreaking

I was born in Mexico, but I consider myself a citizen of the world. At just five years old, I moved to France, where I lived for nearly three years. Years later, I received an excellence scholarship to study Architecture in the U.S., continued my creative exploration in Germany with Fashion, and expanded into Multimedia Arts in England. By the age of 30, I had crafted what many would call a “perfect life”—a thriving career, fluency in multiple languages, and a loving relationship.

But my true journey—beyond the ordinary—began the day I had a panic attack. In that moment, something deeper called. I left everything behind and devoted four years in the sacred land of Mallorca, Spain, to remember a visceral truth: wholeness is not a goal—it is our original nature.

Wholeness is not a goal—it is our original nature

Since childhood, I’ve seen what many don’t—the geometries behind the visible, the symphony of life beyond logic. My intuition has always guided me with remarkable clarity. But it wasn’t until I said yes to this inner transformation that my natural gifts fully bloomed into my greater calling.

That was the conception of the Mother of Mythbreaking - ***what you think is true is not.***

I began unlocking realms beyond the seen, collaborating with spiritual visionaries, and in 2012, I founded a modern mystery school that has guided conscious pioneers ever since.

I've shared stages with legends like Lee Carroll, Gregg Braden, Bruce Lipton, and Dr. Joe Dispenza. My voice has echoed across 20+ countries—and now, I'm ready to echo in yours.

— Help birth a new **unified** humanity

Today, I empower conscious leaders to break free from inherited limiting narratives—within themselves, their teams, and their missions. As founder of **ONENESS Emerging Intelligence™**, I weave pathways that blend visionary speaking, storytelling, resonance science, and creative expression, and essence converge into full coherence.

My mission is to reveal the illusion of separation and awaken the frequency of ONENESS. I model this through the beehive principle—where every voice matters, every gift contributes, and every cell strengthens the whole. In this proposal, each voice isn't diluted. It's amplified.

I've walked through burnout, depression, miscommunication, and the silence of disconnection. I know what it means to fall apart—and what it takes to return whole. I'm living proof that when we choose to follow our deepest truth—even when it's misunderstood—we unlock unimaginable gifts and help birth a new unified humanity.

I'm deeply inspired to hear the pulse of your vision—how you're here to shift the world and awaken new possibilities. I can already feel the potential of what we're destined to co-create together.

In **ONENESS**,

Lilly

You know the feeling.
Being pulled in too many directions. Striving. Fixing.
Questioning. Dimming your light to fit outdated
molds.

The systems around us glorify exhaustion. Reward
disconnection. They whisper paradigms that say:
Become someone. Do more. Be more. Prove more.
Do it alone.

But what if that story... is the myth?

ONENESS Emerging Intelligence™ isn't just a
concept, it's a call.

A living framework for those ready to break the
trance of fragmentation and reclaim the harmony
that has always been yours.

It begins with mythbreaking—the courageous act
of dismantling the cultural illusions and internalized
beliefs that limit your brilliance.

It restores coherence between our physical,
emotional, mental, and spiritual intelligences,
empowering you to lead not just with strategy, but
with soul.

This framework meets you where you are—and
moves with you.

It fuses spiritual wisdom with business acumen,
ancient resonance with modern consciousness
research, personal awakening with collective
evolution.
